### Sky is Falling [with puppets or you may adapt to people skit]

Synopsis:

Teacher or person on the outside of the puppet stage discusses the story of Henny Penny and the sky is falling talking to the Character Puppet.

Teacher: “Real meteorites fall each and every day. Our atmosphere works like an umbrella of protection burning up MOST of the meteors before they land and make the craters.”

Puppet: “ Then why are you carrying an umbrella?”

Teacher: “ The umbrella is to protect me from the rain, not from meteorites.”

Puppet: Keeps using a squirt gun towards the teacher while his/her back is turned. The conversation leads to the umbrella of protection. Meanwhile kids are getting an occasional stray squirt into the audience.

Teacher: When you are in the will of the Lord, you are under the umbrella of protection; but when you sin or break the laws of God, and then you find yourself outside the umbrella area. God is always trying to get you to stay under His umbrella and be protected, in His will.
